

All-Time best -seller

The twentieth century - a frenetic period of change - is history's most revolutionary era.

It has seen our greatest discoveries in science and vast changes in the ways and customs of society.

Hundreds of things which satisfied and pleased our forefathers have been laid aside long ago as obsolete, useless, old fashioned.

But the Bible lives on!

This Book of books has achieved the humanly impossible - in every age it remains meaningful to mankind!

The reason for its success is that it comes from God and not from man. No book could bless the world, as this book has, if its constant claim - "thus says the Lord" - was a lie.

Why then hasn't this holy Word made far greater impact upon humanity? The answer is that no one is forced to accept the truth.

In past centuries God allowed His enemies to burn the Bible.

In modern times He has allowed it to be banned by communist regimes.

In other words, He allows the message and influence of His wonderful Book to be limited! - limited by man's willingness to receive it.

Even so, the Bible continues to outlive all other books, continues to change the course of history and continues to bring blessing to millions of people around the world.

GOOD NEWS IN BRIEF

Centuries ago God foretold, "My Word...always produces fruit. It shall accomplish all I want it to, and prosper everywhere I send it."

Isaiah 55.11 (Living Bible)

Ken Packer
