

Be a Reader

If God inspired a book, would you read it?

Well he inspired the writing of the Bible to let you read your Creator's thoughts!
What a privilege.

First, it is a book like no other because it needed to remain relevant for thousands of years – longer than any other book ever written. Sure enough, this has happened.

Second, the book foretells world events with breathtaking accuracy. This alone assures us that the book comes from God, because only he knows the future.

Third, it correctly foretells that men cannot rescue themselves from their sinfulness, and it accurately shows the source of man's sin – the wayward human heart.

Fourth, history records mankind's official attempts to destroy God's book – banning its publication, forbidding reading it, punishing those who dared disobey. Imagine it. Officials declaring the reading of this book unlawful! God is surely right, the human heart is indeed in rebellion against him.

Fifth, God's book directs us to seek from him, through our prayers, the help we need. Those who accept his guidance find that he is indeed the answer to all our specific, ongoing, personal needs.

So don't delay reading his Book. Discover the wonderful promises it has for you.
