

Creation's Great marvel

Man is Creation's great marvel

Not only because his heart beats forty million times per year, driving the bloodstream a distance of over sixty thousand miles in that time;

Not only because of mechanisms such as the eye - more wonderful than any man-made camera lens;

Not only because of the unique quality of his brain, with reasoning powers far above the animal kingdom.

So why is he a marvel? Because he can walk and talk with God.

His intended destiny is also unique - to spend eternity with his Creator. God has special concern that we make a safe crossing from this life into the next. But how many universities and centres of learning mention it?

Nevertheless all this can be widely known and understood -

First, full details are in God's travel guide, the Bible.

Second, his world-wide church has special teachers to show us how to prepare ourselves for this greatest journey of all.

Third, God Himself can speak to human hearts anywhere in the world, especially places where God's book and God's Church are unknown or banned.

Fourth, our heavenly Father doesn't promise a comfortable journey on our way to the next life, but He promises a safe landing.

GOOD NEWS IN BRIEF

Marvelling at mankind's exaltation, the psalmist asks God, "What is man that you are mindful of him?" Psalm 8.4

Ken Packer
