

Gifts from God No. 2

STABLE CLIMATE

While Earth endures, God guarantees regular seasons will not cease.

He promises, unconditionally, that “while the earth remains, seed-time and harvest, and cold and heat, and winter and summer, and day and night shall not cease.” Genesis 8.22.

After thousands of years, is it this promise that's now challenged by global warming alarmists? See Andrew Bolt's six responses –

First, he says that polar bears were classified as endangered because of warming-induced starvation. He explains it is a “fake warming scare: polar bears are actually increasing.”

Second, “Thai floods, Thai drought: 2015, 2017. Warming blamed for both.”

Third, “Another dud warming prediction: crops boom and food prices fall.”

Fourth, “Flannery confounded. Arctic decline pauses; Antarctic sea ice grows.”

Fifth, “Professor Peter Ridd says you can't trust alarmist scientists who claim the Great Barrier Reef is dying, thanks to man-made warming – coral cover up 19% in three years.”

Sixth, “how much longer before journalists finally challenge these false prophets?”

Andrew Bolt is not a Christian, and his criticisms of global warmists are not based on any Bible promises of seasonal stability.

But note this further Bible reference – God's instruction to *subdue* the Earth. Genesis 1.28.

How far are we meant to go?
